Re: Frontier Airlines
SAVE OUR JOBS
Date: August 31, 2009

Dear Sisters, Brothers, family members, and friends;

We are in a real dog fight to save the Frontier Airlines heavy check maintenance jobs in Denver. It is very important that we have as many people call the elected officials of this state and tell them to fix the tax problems that are the reason Republic Airlines will move the heavy check jobs out of Denver.

Please pass this along to everyone you know and have them call and tell the politicians that you want them to preserve the good paying, tax paying jobs.
